ABOUT ME

I am an Artificial Intelligence Engineering student at Sepuluh Nopember Institute of Technology (ITS) with a deep passion in Data Science, Machine Learning (DSML), and Backend development. Equipped with an depth understanding of ML and a background in competitive programming, I thrive on sharpening my analytical and problem-solving skills. I am a fast learner who adapts quickly to new technologies, and I am fully committed to continuous growth in the dynamic tech ecosystem.

HONORS

Third Place Gunadarma Code Week 2.0

Gunadarma University - Juni 2026

- Integrate a Retrieval-Augmented Generation (RAG) pipeline into a mobile application using a Google-based environment, with low latency (~20 ms), designed to support customer-worker P2P.

Second Place Data Mining Competition UNITY#14 2026

Yogyakarta State University - Juni 2026

- Integrate Siamese Self-Supervised Learning model (SSL) to segmentate the destoryed section post-disaster within 6% average improvement from XBd dataset paper experimentation

Third Place Hackathon DINACOM 11.0 2026

Dian Nuswantoro University - Januari 2026

- Integrate ResNet architecture to classify the road damage with 97% accuracy score
- Creating Graph Neural Network (GNN) to priotitize efficient roadworking

Finalist of Big Data Challenge Statistic Explore 2025

Universitas Syiah Kuala - September 2025

- Rank third on Qualifier stage with Private Score F1-Macro 0.421838
- Successfully predict Economic Day Status by handling ~75% MCAR missing data with imbalance class problem using Synthetic Minority Over-sampling Technique (SMOTE)

ORGANIZATION

Data Science and Artificial Intelligence Division

July 2026 - Now

Avalon AI Community

- Qualify from 3 Avalon exam (Math for Machine Learning, Computer Vision dan, GAN-Diffusion)

Data Science Competition Staff

May 2026 - Now

Schematics ITS

- Designed and evaluated contest, implementing robust measures to prevent cheating and data leakage

Backend Developer and Data Engineer

November 2025 - Now

Quzuu Edutech

- Developed a reliable ETL migration pipeline to transfer 50,000+ questions with data integrity and consistency.
- Successfully resolved 50+ technical tickets using Agile methodologies, ensuring continuous project delivery.

EDUCATION

Institut Teknologi Sepuluh Nopember

August 2025 - Now

Artificial Intelligence Engineering (B.Sc.)

- GPA: 4.00 / 4.00
- EA234102 Fundamental Programming - Assistant Lecturer

Petra 5 Senior High Schools

June 2022 - March 2025

Physics | Chemistry | Informatics | Advanced Mathematics

- Highest archiever in Advanced Mathematics and Informatics
- Petra 5 Senior High School Representative in 2024 Informatics National Science Olympiad East Java region

PROJECT & RESEARCH

Garden Bunga: Efficient Hybrid Sequence Modeling for Indonesian Speech Synthesis via Multilingual Knowledge Transfer

Final Project KCVanguard - March 2026

- Best Implementation Project in KCVanguard 2026 workshop by Intelligent Computing and Vision Laboratory
- Sucessfully reduce inference time complexity from $N * O(n^2)$ to $(N-k)O(n^2) + k * O(n)$
